Hi Bob,

Attached are the comments that will need to be addressed prior to approval of the revision. They have been separated from other comments sent last week that can be addressed later. One comment about concurrent placement of tospoil was deleted.

We will send the other comments later, but they are included in the comments I sent last week if you have questions about which comments are not required for revision approval. Some of them are related to maps. Let me know if there are questions.

Peter
